Arabic: Native

English: Professional

PROFESSIONAL SUMMARY

Full-Stack Web Developer with 5 years of hands-on coding experience, specializing for the past 3 years in React and Laravel alongside JavaScript, PHP, and MySQL. Backed by 1 year of professional experience at Vibcoding, I quickly adapt to new technologies and focus on delivering clean, scalable web solutions. I am currently fully available for a six-month Co-op placement.

EDUCATION

2021-03 - 2027-7

B.S. Computer Information Systems
King Faisal University

WORK EXPERIENCE

Independent Software Developer *(2020-2026)* present

Key Qualifications & Responsibilities

- Architected and developed multiple full-stack applications from concept to deployment, demonstrating the ability to independently manage the complete software development lifecycle.
- Engineered creative workflow automations, such as integrating bots for remote system management and building API connections for automated data extraction, streamlining operations and reducing manual intervention.
- Simulated real-world business requirements through self-directed projects, designing scalable architectures and integrating advanced features to solve complex technical challenges.

Key Achievement:

- Successfully conceptualized and deployed comprehensive web solutions with creative architectural designs, proving readiness to transition seamlessly into an enterprise-level engineering team and deliver immediate value.
